

WHAT IS IDCONNECT?

IDCONNECT FINGER IDENTIFICATION SYSTEM ALLOWS US TO QUICKLY SERVE OUR STUDENTS AND KEEP THE LUNCHLINE MOVING!

Contrary to common misconceptions and misinformation about the technology world, this system does not store any biometric information, fingerprints, matrixes, or measurements. Due to a patented software design, it cannot reproduce a fingerprint in any way. The only way a match can be made is when the student's finger is on the reader. The data gathered is put into an algorithm and encrypted.

TO READ MORE ABOUT THE IDCONNECT FINGER
IDENTIFICATION SYSTEM, VISIT [FINGERID.NET/FAQ](https://fingerid.net/faq)

Even though there is no risk of stored biometric information, you can opt your child out of using the system. Please contact your child's school's child nutrition manager or mail a letter with your name, child's name and the name of your child's school to the address below by **August 7, 2023**.

Fort Payne City Schools
Child Nutrition Program
231 38th Street NE
Fort Payne, AL 35967
